

Pressure Relief Valve

Product	: Pressure Relief Valve
Application	: Valve will open if pressure of pipeline is greater than the pre-set level
Working Principle	: The operating pressure of the valve can be pre-set by adjusting manually of the spring tension in the controller
Body Material	: Stainless Steel 316L
Rubber Material	: Silicone
Working Pressure	: 0 ~ 5 bar (Optional 0 ~ 12 bar)
Working Temperature	: -10°C to 135°C
Size	: 1" ~ 3"

Pressure Relief Valve
